Dear Judge Komitche:

(22-cv-766 CER)

I am still starved every day; I am still locked in my parking space cage 24/7; The government still blasts 24/7 from its torture speakers; I AM STILL TORTURED IN AN AMERICAN CONCENTRATION CAMP.

There is ~~not~~ no greater evil than indefinite solitary confinement. Not even the Nazis inflicted such torture. Any day of the week I would gladly switch places with an Auschwitz prisoner from 1940. At least they were permitted to die. I would rather live a painful death in the gas chambers than subjected to this indefinite, maddening torture. You could never ~~ever~~ understand. I want to die. My best part of the day is when I get to lose consciousness and dream of a time when I wasn't tortured. And the worst part of each day is when I wake up & realize I must live another day in this torture. I wish I had never lived this life - that my mother had aborted me 30 years ago, but

not because I commit any crime against
this evil government, but because of this
horrendous, despicably evil punishment of
24/7 Solitary Confinement.

No human being deserves this torture—no matter
what he did or what this despicable court
claims he did. There is no justice in imposing
24/7 Solitary Confinement. It is barbaric & as
uncivilized as any possible torture.

I refuse to live another winter in the extreme
cold in this concentration camp. I ask that
you vote on my § 2241 asking to halt my
torture. If not, I will kill myself by the
end of the year to avoid further pain, suffering,
and unbearable agony.

But it will not really be suicide. It will be murder.
You and this despicable government will eventually
answer for your crimes. Perhaps not in this life,
but certainly in the next. There is truly no greater
terrorist that has ever lived and no greater crimes
against humanity than the United States federal gov't &
its "justice" system. May God bring it true justice.
